

StonkBrokers Protocol — Business Source License 1.1

Official licensing notice from **Clutch Labs**. This document states license terms only — **it does not include protocol source code**.

Effective 2026-08-25 · Licensed Work: StonkBrokers Protocol (Clock In · Broker Box · Smart Launch · collection / marketplace · related contracts) · Related: Anvil AMM BUSL in the Anvil repository

1. Status

Clutch Labs licenses the **StonkBrokers Protocol** Licensed Work under the **Business Source License 1.1 (BUSL 1.1)** — the same source-available model Uniswap uses for v3/v4 core and Clutch Labs uses for **Anvil AMM** — so partners and builders can receive source under clear rules without a free-for-all production clone window.

Warning to cloners and violators. Production or commercial use of StonkBrokers Protocol source — including deploying a competing Clock In engine, Smart Launch / Safe Launch pad, Broker Box machine stack, collection / marketplace derivative, or other Licensed Work fork — without an Additional Use Grant or written commercial license from Clutch Labs **violates BUSL 1.1**, terminates your license rights, and may be pursued as copyright infringement. On-chain bytecode, Blockscout verification, public ABIs, and integration PDFs are **not** a production-use grant.

2. License parameters

Parameter	Value
License	Business Source License 1.1
Licenser	Clutch Labs
Licensed Work	StonkBrokers Protocol (protocol contracts and related source distributed by Clutch Labs in the StonkBrokers repository)
Surfaces in scope	Clock In / Directed Clock In · Broker Box · Smart Launch / Stonk Launcher · StonkBrokers collection / TBA / marketplace · bridge · referrals · options · fee splitters · related contracts/
Additional Use Grant	Uses listed in <code>contracts/licenses/ADDITIONAL_USE_GRANTS.md</code>
Change Date	2029-08-25
Change License	MIT License (automatic on Change Date)
Related Licensed Work	Anvil AMM — separate BUSL 1.1 in the Anvil repo (Change Date 2029-08-12)

3. What you may / may not do

Allowed under BUSL (without a grant)	Not allowed without a grant / commercial license
Non-production study, research, internal testing, and modification of source you lawfully received under this license.	Production or commercial use — including deploying a competing Clock In, launchpad, Broker Box, marketplace, or AMM stack derived from the Licensed Work.
Integrating against live Clutch-operated StonkBrokers / Anvil / Clock In / Smart Launch deployments via public ABIs as an end user or frontend.	Using StonkBrokers / Clock In / Smart Launch / Anvil / Clutch trademarks, or rebranding a clone as official.
Holding Additional Use Grant rights if your entity is listed in the grant register.	Assuming partner talks, Discord chats, or “open source on GitHub” equal a grant — grants are written and listed.

End users and integrators: Trading, launching, clocking in, or building a wallet / terminal that talks to Clutch Labs' live contracts is fine. Copying those contracts into your own production factory is not — unless you have a grant.

4. Anvil AMM (related)

Anvil AMM factory, vaults, deployers, and related protocol source are licensed under BUSL 1.1 in the Clutch Labs **Anvil** repository. Same Licensor. Same production restriction. See Anvil `LICENSE` , `contracts/licenses/BUSL_LICENSE` , and the Anvil BUSL notice PDF.

5. Where the binding text lives

- `LICENSE` — short notice at StonkBrokers repo root
- `contracts/licenses/BUSL_LICENSE` — full BUSL 1.1 + StonkBrokers Protocol parameters
- `contracts/licenses/ADDITIONAL_USE_GRANTS.md` — commercial exceptions register
- Site docs: <https://www.stonkbrosers.cash/docs#protocol-license>
- Anvil AMM: Anvil repo `contracts/licenses/BUSL_LICENSE` (Change Date 2029-08-12)

Counsel note: BUSL is not an OSI open-source license. Prior MIT / ISC notices, SPDX headers, or explorer verification of deployed bytecode do not by themselves authorize a competing production fork of StonkBrokers Protocol or Anvil AMM. Have counsel review grant language before any partner production deploy. This notice is informational and not legal advice.
